“FOLLOW YOUR PASSION” Jaden Lane

... FUTURE ENGINEER
... ARTIST ... ENTREPRENEUR
... MICHIGAN CITY SUCCESS STORY

Jaden Lane is a problem solver with an affinity for math, a desire to create, and a mind for business.

EXPLORER: Jaden graduated from Michigan City High School in 2014 with 37 AP and dual college credits. At City, she was an academic standout and MVP of the softball team. “My teachers at Joy, Krueger, and MCHS poured their hearts into their work. They created an environment where students are encouraged to explore their interests and potential.”

SPECS & SOLUTIONS: A junior at Purdue Northwest, Jaden is studying mechanical and civil engineering. She’s also an intern at Dwyer Instruments, where she analyzes products and writes specifications for gauges that measure humidity, temperature, air velocity and other factors. After college, she plans to work in manufacturing for renewable energy products. “I love the problem-solving aspect of math. I like to work with both the properties and electrical processes of materials.”

SOAP STORY: A talented painter and illustrator, Jaden once considered becoming an artist. Instead, she pursued art as a hobby, which she has grown into the successful online business “Yours Truly,” specializing in bath bombs, body scrubs, and bubble bars. “One year for Christmas, I made everyone spa kits with a basic scrub and soap. People asked me if they could buy more, and then their friends wanted to buy some. Now I ship anywhere in the U.S. and Canada and have a booth at the St. Stan’s Farmers’ Market.”

SECRET TO SUCCESS: “Give 110%. When you find what you’re passionate about, attack that wholeheartedly.”
