

“PUT YOUR HEART INTO IT!”

Jayne McCormick

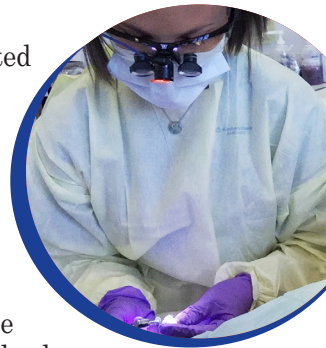

... I.U. HONORS GRADUATE
... FUTURE PEDIATRIC DENTIST
... MICHIGAN CITY SUCCESS STORY

What do you get when you cross a dentist with an elementary school teacher? Jayne McCormick, a 2008 Michigan City High School grad and future pediatric dentist!

FAMILY BUSINESS: Jayne’s father practices dentistry in Michigan City and her mom is a retired teacher. “Watching my parents work greatly influenced my own aspirations and my passion for helping children.”

FINISH LINE AHEAD: Jayne graduated from the Indiana University School of Dentistry in May and officially became Jayne McCormick, DDS. She will begin a residency at Riley Children’s Hospital in July, after which she will earn a master’s and certification in pediatric dentistry. “I see myself working in a group practice near a hospital, and I want to be involved in helping children in my community. I enjoy teaching kids about oral health in fun and interactive ways!”

CITY SUPPORT: In high school, Jayne completed multiple honors and AP courses, played volleyball and tennis, was a member of the National Honor Society and Spanish Club, and was Class President for two years. “My teachers guided me. My coaches inspired me. We built such a strong family within the school, and I received a great education. All those people helped me to attain all the goals I’d set for myself.”

SECRET TO SUCCESS: “Find something you love doing. Have a positive attitude, put your heart into it, and just go for it. That’s something I’ve noticed about my colleagues – our hearts are in it, and we absolutely *love* what we’re doing.”

Did you know?

Michigan City High School offers a wide range of science electives, including Anatomy & Physiology, Principles of Biomedical Science, and Human Body Systems.
